### WOORAMEL RIVERSIDE RETREAT

A two day stay with a nice café, pleasant spring baths, reasonably good facilities and easy access from the main road. Very convenient stopover on way to Ningaloo Coast further north. A great drive over the river bed was taken to get back to camp.

## COASTAL CAMPING

Enjoying the great outdoors Western Australia had to offer.

### WAROORA STATION STAY

Some of the most picturesque and pristine coastal spots on the whole trip. Heading north Wedding Hill and Stevens were standouts but south was where the magic was with Lagoon being perfect for swimming and fishing. The reef being further out snorkeling was fun but limited. Still south but closer to home was Shack Beach which Chris found himself drawn to everyday to wash off the days dust. Never another person there and perfect spot to get the drone up. Awaiting our movie night

### YARDIE HOMESTEAD CARAVAN PARK

A very well maintained caravan park in a great location, close to Exmouth but also not far from the highlights of the area including Turquoise Bay, Oyster Stacks, the various turtle rookeries and the numerous unspoiled beaches in the area. Great snorkeling and swimming in all locations and Shothole Canyon in the Cape Range National Park was well worth the drive with incredible views on all sides.

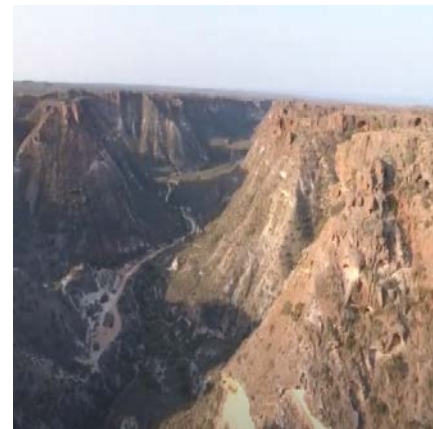

### CORAL COAST

← Mildura Wreck

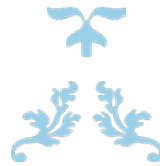

### SHOT HOLE CANYON

Offering perfect picture views from above and below. A local decided to visit and have a chat with Chris.

## WHALE SHARK SWIMMING

## NORWEGIAN BAY WHALING STATION

---

After Yardie Creek we went our separate ways and some continued to venture the coral coast.

**HAMLIN STATION**
